

DISCLAIMER FOR DECORATIVE CONCRETE

Notes on Neilsens Decorative Concrete:

- The aggregates and other raw materials used to make our decorative concrete are products by nature and therefore are subject to variation in colour, size and shape.
- Minerals in aggregate can cause staining. An approved sealer will reduce the likelihood of this condition occurring.
- Please refer to the Cement and Concrete Aggregates Association recommended practices for placing decorative concrete.
- Our exposed aggregate mixes are designed to be placed directly “off the chute” from concrete agitators. Please consult with us if you require to place these mixes via a concrete pump.
- We recommend an approved same day sealer be applied to coloured concrete.
- If on site water addition takes the concrete slump beyond specification colour variation and aggregate segregation may occur
- Please allow us reasonable lead time to obtain colour from our supplier.
